Microsoft Recognizes CSSI's VUE Software Division as Leading ISV

VUE Software Wins Prestigious Gulf States Area General Manager's Award for Independent Software Vendor Excellence

Coconut Creek, Florida, 6/7/2006 — Computer Solutions and Software International, Inc. (CSSI), today announced that its VUE Software® division was awarded the Microsoft Gulf States Area General Manager's Award for Independent Software Excellence during the software vendor's Quarterly Partner Appreciation Event.

The Microsoft Gulf States Area team chose VUE Software because of their dramatic growth and dedication to customers. "With the support of the local Microsoft team, CSSI made a bold investment this year diversifying their business by leveraging sixteen years of healthcare and insurance industry experience to take their packaged software application to market. The VUE Software line of products has quickly become a leading offering in the Health-Insurance market and established CSSI as a key member of the Microsoft Insurance Value Chain. With the technical and sales support of Microsoft's Gulf States Area SMS&P team CSSI has already earned the business of three premier benefit processing organizations in Florida, adding to the rapid revenue growth of the company and securing the Microsoft .Net, SQL, and Information Worker platforms in these accounts. CSSI is a terrific example of how Partners can best leverage the resources and expertise of the entire Microsoft ecosystem to grow their business and deliver exciting new solutions on the Microsoft Windows, Office System, and Dynamics platforms," said Carol De Jesus, Partner Account Manager at Microsoft.

Microsoft established the ISV Excellence Award as a way to recognize outstanding members of the Microsoft partner community and evaluates the revenue, market impact, and business value of solutions in selecting the winner.

"We're honored to be recognized by the Microsoft Gulf States Area and appreciate their acknowledgment of the success we've experienced with our VUE Software division," said Joseph Westlake, Vice President at CSSI. "We're very proud of the strong partnership we've built with Microsoft's local team along with the investment we've made in working with Microsoft's Insurance Value Chain. We're incredibly excited about the future of VUE Software and our effort to redefine the value Insurance companies realize from compensation management systems."

About Microsoft

Founded in 1975, Microsoft (Nasdaq "MSFT") is the worldwide leader in software, services and solutions that help people and businesses realize their full potential.

About CSSI and VUE Software®

VUE Software® is the product division of Computer Solutions and Software International (CSSI) dedicated to providing industry-specific business technology solutions to companies in the insurance, healthcare, and construction verticals. Because they are tailored to the needs of these particular industries, our solutions are different from one-size-fits-all performance management and compensation suites such as enterprise incentive management (EIM) and sales performance management (SPM) solutions. VUE Software's solutions allow companies to manage strategic incentive plans, automate producer administration and organize complex data and contractor policies, resulting in greater administrative efficiency and improved sales performance. For more information about VUE Software, please call 1.877.4.VUESOFT or visit www.vuesoftware.com.
