

FOR IMMEDIATE RELEASE

VUE Software offers VUE Compensation Management with Windows Azure

Coconut Creek, Florida, 6/10/2010 —VUE Software® today announced that they are moving their Software-as-a-Service versions of the VUE Compensation Management and VUE IncentivePoint solutions to the Microsoft Windows Azure platform.

Senior leadership at VUE Software identified the potential of this solution in promoting cutting-edge practices in health insurance organizations. As a result of this decision, VUE Software has been named a Front Runner on the Microsoft Windows Azure platform. The solution will reduce upfront software licensing costs and hardware infrastructure, making it easier for carriers and agencies of all sizes to advance their internal processes.

“Our ISV community is alive with innovation, and we’re committed to helping our partners drive the next generation of software experiences,” said Ross Brown, Vice President of ISV and Solutions Partners for the Worldwide Partner Group at Microsoft. “Adding compatibility for the latest Microsoft operating systems helps ISVs to stay ahead of the competition and give their customers access to cutting-edge technologies.”

VUE Compensation Management is a leading insurance industry-focused commission and incentive management system, designed to meet the needs of insurance carriers, agencies, brokerages, and third-party administrators. Clients of the solution can intuitively design, manage, and track effective incentive programs and produce powerful reports - ensuring confidence in compensation metrics, and reducing the reliance on IT. Most importantly, VUE Compensation Management helps motivate brokers and agents by providing clear performance measures and trusted payments.

“We are excited to meet the needs of an emerging market in the health insurance segment and to play a significant role in their business growth by providing VUE Compensation Management on Windows Azure,” said Joseph Westlake, Vice President at VUE Software. “Our solution, combined with the strength of the Microsoft Windows Azure platform, delivers the capability needed for organizations to streamline their operations and leverage their broker channels optimally.”

VUE Compensation Management has also earned the “Work With” designations for Windows Server 2008 R2 and Windows 7.

About Microsoft

Founded in 1975, Microsoft (Nasdaq “MSFT”) is the worldwide leader in software, services and solutions that help people and businesses realize their full potential.

About VUE Software®

VUE Software® is dedicated to providing industry-specific business technology solutions to companies in the insurance, healthcare, and construction verticals. Because they are tailored to the needs of these particular industries, our solutions are different from one-size-fits-all performance management and compensation suites such as enterprise incentive management (EIM) and sales performance management (SPM) solutions. VUE Software’s solutions allow companies to manage strategic incentive plans, automate producer administration and organize complex data and contractor policies, resulting in greater administrative efficiency and improved sales performance.
