

FOR IMMEDIATE RELEASE

VUE Compensation Management Earns “Compatible with Windows® 7” Logo

Rigorous testing procedure validates VUE Compensation Management compatibility with Windows® 7

Coconut Creek, FL, 11/4/2009 - VUE Software today announced that its flagship product, VUE Compensation Management, as well as VUE IncentivePoint, have successfully passed a rigorous testing procedure for compatibility with Microsoft's newly released Windows® 7 operating system.

As a result of the certification, VUE Software parent company Computer Solutions and Software International (CSSI) has been named a Front Runner on Microsoft Windows® 7 to offer customers enhanced security, as well as innovative user interface features and reliability improvements.

“Our ISV community is alive with innovation, and we're committed to helping our partners drive the next generation of software experiences,” said Ross Brown, Vice President of ISV and Solutions Partners for the Worldwide Partner Group at Microsoft. “Adding compatibility for the latest Microsoft operating systems helps ISVs to stay ahead of the competition and give their customers access to cutting-edge technologies.”

VUE Compensation Management is a leading insurance industry-focused commission and incentive management system, designed to meet the needs of insurance carriers, large agencies, brokerages, and third-party administrators. Clients of the solution can intuitively design, manage, and track effective incentive programs and produce powerful reports - ensuring confidence in compensation metrics, and reducing the reliance on IT. Most importantly, VUE Compensation Management helps motivate sales teams by providing clear performance measures and trusted payments.

“We are excited to demonstrate the Windows 7 compatibility of our applications.” said Stephen Bruno, President and CEO of CSSI and VUE Software. “This enhancement will help us offer our customers compelling benefits, including improved security and reliability features.”

As a Microsoft Gold Certified partner, CSSI has always shown commitment to the Microsoft platform. VUE Compensation Management is also compatible with Windows Server 2003, Windows Server 2008 Windows XP and Windows Vista.

About CSSI and VUE Software®

VUE Software® is the product division of Computer Solutions and Software International (CSSI) dedicated to providing industry-specific business technology solutions to companies in the insurance, healthcare, and construction verticals. Because they are tailored to the needs of these particular industries, our solutions are different from one-size-fits-all performance management and compensation suites such as enterprise incentive management (EIM) and sales performance management (SPM) solutions. VUE Software's solutions allow companies to manage strategic incentive plans, automate producer administration and organize complex data and contractor policies, resulting in greater administrative efficiency and improved sales performance.
