

VUE Software Recognized Five Times in a Row by Inc. Magazine, is a Top 100 Company in the Miami Metro Area

Leading insurance distribution and incentive compensation management solutions provider featured in 2013 Inc. Magazine's exclusive list of America's fastest-growing private companies

Coconut Creek, Florida, 8/26/2013 — Inc. magazine today included VUE Software on its exclusive annual Inc. 500|5000 ranking list of the fastest-growing private companies in the United States for the fifth time in a row. With Fuhu topping the list, VUE Software joins companies like LivingSocial, Edible Arrangements, CDW and Lifelock, among other prominent brands on this year's list.

VUE Software provides billing, sales and marketing automation solutions along with its premier distribution management and incentive compensation solutions for the insurance industry. Today, over one million insurance agent relationships are being managed through VUE Software solutions.

"It feels special to be a part of the exclusive Inc 5000 list for five consecutive years," said Stephen Bruno, President and CEO of VUE Software. "This achievement emphasizes that we have been consistently making the right decisions to meet the needs of our customers. It's not just meeting customer requirements, but delivering an excellent customer experience and improving our clients' business efficiency that matters to us, and our dedication towards these aims helps us stand out in a competitive marketplace."

"Not all the companies in the Inc. 500 | 5000 are in glamorous industries, but in their fields they are as famous as household name companies simply by virtue of being great at what they do. They are the hidden champions of job growth and innovation, the real muscle of the American economy," says Inc. Editor Eric Schurenberg.

VUE Software is also ranked #97 in the Top Companies in the Miami Metro Area list and is very proud of this achievement. To see all the companies in the list, or to see VUE Software's profile, please visit: www.inc.com/inc5000/list/2013 or www.inc.com/profile/vue-software.
